A Washington letter to the New York of Stability of the first lead pencils ever made, and it has always been celebrated for the opions and it has always been celebrated for the opions and it has always been celebrated for the opions and it has always been celebrated for the opions of seath insertion.

It is probable that it furnished the material for the first lead pencils ever made, and it has always been celebrated for the opions of seath insertion.

To day I saw old General Sutter, on whose land gold was first discovered in sometimes plandered by the rude people great old age, uncompensated and negonity of the district, and a special act of Par-

in Keswick, one of which we had the like Jupiter to Danae, in a golden shower, pleasure of visiting when last in England.
The "leads" for the best pencils, as we his fields, killed his berds, and made descheaper than manual power and seventy were told, were formerly sawed out from plation in place of the fair estate they masses of the pure graphite, then yielded had found. From that discovery came by the Borrowdale mine; but the only

for the purpose is in Siberla. The wood used for all the better kinds of pencils is the Florida cedar, which is thoroughly seasoned, cut into strips, dried again, and then cut into pieces of proper size for pencils. These are grooved by machinery, the leads are A Brooklyn scholar, aged fourteen glued into the groove, and the other able to find an ear in which he can tell half of the wood is glued on. After behis story. He is now more than eighty ing dried under pressure they are years of age, and lives in a little cottage ished by another machine, and some-times painted or varnished by a third, which feeds the pencils from a hopper tunes; yet here is the man at the source "To my Pastor" is what a New York and turns them round under the brush of this mighty romance with scarcely a We have said that a lead pencil contains place to lay his head. He is a kindly, lady wanted engraved on a costly china no lead, but there is one exception to genticold person, but he has passed his cup; but it came from the hands of the the statement. The hardest grades of age. Some morning during the session pencils used for architectural drawing there will be an announcement of his have sometimes been made of an alloy of death, and then perhaps Congress will ful to think that he lost all his spare these very cheap pencils is white pine, Pacumatic Postal Service to Eug.

At the second meeting of the members length of pneumatic tubes in operation at the beginning of the present year was: In London, 17 miles 1160 yards; in Liverpool, 1 mile 1237 yards; in Dublin, mile 940 yards; in Manchester, I mile 266 yards; in Birmingham, 917 yards, and in Glasgow, 242 yards. The system would soon be introduced in Newcastle A goose that sees another drink will do he same, though he is not thirsty. The preferable material than iron for the tubes, and the tubes were about 2 inches in diameter—a size sufficient to satisfy the traffic—that the carriers or pistons were of gutta percha, covered with drugget, and weighed two and three-quarter ounces each, and that the annual ex-penses, including the cost of working and maintenance, and interest at three and a half per cent on the plant, was water, Minn. "The marrison of Jake barely two thirds of the pay alone of the Marty to Miss Glazey was celebrated staff, which would be required to tele-last week. The Stillwater orchestra graph the messages, excluding altogether the interest on the cost of the wires and apparatus, their maintenance, and the cost of conveying the large amount of ties were kept up until long after day light the following day."

Mrs. Jane Swisshelm writes thus. "The reign of terror, the war of races in the Routh, must be stamped out of the nation." Yes, but see here, Jane, can you look at wan foot of yours and complete which governed the amount of the low of air through tubes, and the amount of nation. Yes, but see here, Jane, can you look at wan foot of yours and complete which governed the maximum results wanted. Address with stamp National Copying the targe amount of pages. Mutual Benefit Life Ins. Co

\$32,000,000 Assets, over - -LEWIS C. GROVER, Pres't,

SPENCER GOBLE, Vice President; EDWARD A. STRONG, Secretary; BENJ. C. MILLER, Treasurer. Policies in Force January 1, 1875, 41,302; Insuring \$132,000,000.

This is the third largest company in the world, and pays the Largest Dividends to its Policy holders.

This Company's average dividends for the last thirty years have been higher, and its average expenses for same time have been lower than any other Company in the United States. All kinds of approved policies issued. Not having any Southern class, parties insuring in this o'd and sterling institut ion receive the rame dividends as the Northern Policy-holders. Policies non-forfeitable after payment of second year's premium.

Whereas, Within the past seves, years, forty-one weaks or worthiness Life Insurance Companies have been excluded from the State by orders of the Insurance Department; and Whereas, There is good reason to believe that within the next seven years many more of a like warthless character will be forced to retire.

This message is issued to admenish the citizens of Tennessee, and so far as may be to save them from loss in consequence thereof.

To guide the citizens of the State in the selection of the best Life Insurance Companies, we furnish the following practical illustration of their comparative merits:

In doing this we emphatically disclaim any unfriendliness toward any company, or any desire to injure any. Referring to the Massachusetts Insurance Reports of 1574, we select three of the best and three of the poorer class of companies:

MATIO OF REPERSE TO INCOME FROM 1866 TO 1873, INCLUSIVE. 10.33 Continental... 10.80 Washington... 11.53 Security..... utual Benefit ... Mutual Life 10.80 Washington 24.67
Connecticut Mutual 11.55 Security 11.87
It will be noticed that the ratio of expense of the last three companies were more than double that of the first three. Notice, now, the relative percentage or dividends paid by the same companies to their policy-holders since the organization of each:
Mutual lieuofit 27.0 Continental 14.60
Connecticut Mutual 27.0 Washington 14.40
Mutual Life 5.70 Security 11.91
It will be seen that the dividends paid to policy holders by the last three companies are more than one-matrices than the dividends paid by the first three. It is this difference in dividends that makes the difference in the cost of Life Insurance. Into Mutual Edment, with an average return dividend of 35 per cent., furnishes its policy-holders by the Insurance 22 per cent. cheaper than those companies which returns only II per cent. dividend.

Money paid for Life Insurance is well invested when paid to seem pay as the Mutual Benefit, but worse than thrown away when paid to the weak or worthless institutions too often presented for public patronage.

We will give prompt attention to applications for insurance or for agencies in this com-

often presented for public patronage.

We will give prompt attention to applications for incurance or for agencies in this company, and will also be glad to furnish information in regard to Life Incurance in any form, or as regards the character and standing of any company.

We expecially caution the public against a horde of modern fallacies and new forms introduced by weak and in some cases by worthless companies. Before investing in anything of the kind, send your address and receive information on the subject.

Life insurance Acents and solicitors will find with this company the most favorable conditions for successful work.
